Finrails™ AP
provided by Signature Bank

**LESS EFFICIENT,
PAPER PAYMENT PROCESSES**

TRANSFORMED INTO ▶

**SIMPLE,
ELECTRONIC PAYMENT PROCESS**

Step into the next generation of payments with Finrails AP.

Is your accounts payable department overwhelmed with manual processes and paper?
Meet Finrails. Finrails AP is an online dashboard that automates business to business
payments for companies of any size to pay their vendors in a secure and seamless process.

SIMPLE PAYMENT UPLOAD	Upload your payments in a single file format as simple as an Excel spreadsheet. Or take advantage of Finrails' compatibility with leading accounting and industry-specific software systems to create an end-to-end automated AP solution.
WE DEAL WITH YOUR VENDORS	Our Finrails customer service team will onboard your vendors into electronic payments. Finrails will then process the payment the way they want to be paid, whether it's single-use virtual card, ACH, or, if they prefer, by paper check. We take on the printing and processing of checks, and the secure sending of ACH and card payments for you, freeing up your AP department to work on more strategic initiatives.
VISIBILITY INTO CASHFLOW	With our secure online dashboard, your executives can approve payments and sign checks electronically from anywhere at any time, providing visibility into outgoing cashflow to better manage expenses and forecasting.
BUILT-IN FRAUD PREVENTION	Fraud mitigation is included in Finrails with Positive Pay built right into our system. No more accessing a separate database to upload check issue files or confirm your approved transactions.
BACKED BY SIGNATURE BANK	Finrails is provided by Signature Bank, an expert in payment processing with the right controls you need to feel confident that your payments will be handled efficiently and accurately.
